Mitchell Baker

Chairman, Mozilla Foundation

As the leader of the Mozilla Project, Mitchell Baker is responsible for organizing and motivating a massive, worldwide collective of employees and volunteers who are breathing new life into the Internet with the Firefox Web browser and other Mozilla products.

Baker was born and raised in Berkeley, California, receiving her BA in Asian Studies from UC Berkeley and her JD from the Boalt Hall School of Law. Her law career included working for Sun Microsystems and Netscape. She has also sat on the board of the Open Source Applications Foundation.

Baker has been the general manager of the Mozilla project since 1999, helping shape the license under which Netscape's source code was released. In 2003, she became president and founder of the Mozilla Foundation, a non-profit organization dedicated to openness and innovation on the Internet. In 2005, Baker led the creation of Mozilla Corp., a wholly-owned subsidiary of the Mozilla Foundation. Baker served as CEO of the corporation until January 2008, when Mozilla's rapid growth encouraged her to shift her focus back to the scope and mission of the project. As Chairman of the Mozilla Foundation, Baker continues her commitment to an open, innovative Web and the infinite possibilities it presents.

TIME Magazine profiled Baker under "Scientists and Thinkers" in its 2005 *TIME* 100. She has also appeared on "The Charlie Rose Show" and "CNN Global Office" to discuss open source software and the Firefox phenomenon.

John Battelle

*Founder & Chairman, Federated Media Publishing;

James Boyle

*William Neal Reynolds Professor of Law, Duke Law School;
Co-Founder, Center for the Study of the Public Domain*

James Boyle is the William Neal Reynolds Professor of Law at Duke Law School, a board member of Creative Commons and founder of the Center for the Study of the Public Domain. He is also a co-founder of Science Commons, which attempts to speed up science by breaking down barriers to the flow of data and scholarship, and of ccLearn which works to help promote access to Open Educational Resources worldwide. In 1996, Boyle published *Shamans, Software and Spleens: Law and the Construction of the Information Society* (Harvard U. Press) which argued that the politics of the information age were likely to undervalue the importance of the public domain: the material that is free for all to use and base new innovation upon. Since then, his research has elaborated on that point in fields ranging from music and software to film and synthetic biology.

In 2003 Professor Boyle won the World Technology Network Award for Law for his work on the "information ecology" and the "second enclosure movement" that threatens it. He writes a regular online column for the *Financial Times'* New Economy Policy Forum. Among his recent writings are *Bound By Law*, a comic book about the effects of intellectual property on documentary film, *The Shakespeare Chronicles*, a novel, and *The Public Domain: An Environmentalism for Information* which will be published in the Fall by Yale University Press but also made freely available for anyone to download as they wish.

Tom Campbell

Dean and Professor of Business, Haas School of Business, U.C. Berkeley

Tom Campbell is the thirteenth dean of the Haas School of Business, a position he has held since August 2002. He formerly held positions of US Congressman, California State Senator, Stanford University law professor, and recently, California's Director of Finance.

At UC Berkeley, Dean Campbell has focused his efforts on moving the Haas School forward to be among the very top business schools in the world by teaching "Leading Through Innovation."

Prior to joining the Haas School in 2002, Dean Campbell was a law professor at Stanford Law School for 19 years, beginning in 1983. He was elected five times to represent the Silicon Valley area of California in the United States Congress. Among his legislative achievements were authorship of the 1998 Food Bank Relief Act and the 2000 Peace Corps Reauthorization Act. Campbell also was elected as a California state senator in 1993. During a two-year term, he earned ratings by the Sacramento-based *California Journal* as the most ethical state senator, the best overall senator and the state Senate's best problem solver.

A native of Chicago, Campbell earned his bachelor's and master's degrees in economics at the University of Chicago, and a law degree from Harvard in 1976. He returned to the University of Chicago, earning a Ph.D. in Economics there in 1980. His dissertation was the first quantitative measurement of discrimination against women in federal civil service employment.

He served as a clerk to U.S. Supreme Court Justice Byron White from 1977 to 1978 and, the year before that, for U.S. Court of Appeals Judge George E. MacKinnon. He practiced law at Winston & Strawn in Chicago until 1980, when he became a White House fellow in the Office of the Chief of Staff. He then served as executive assistant to the U.S. Deputy Attorney General and became the youngest person ever to be appointed director of the Bureau of Competition in the Federal Trade Commission, where he served from 1981 to 1983, when he joined the faculty of Stanford Law School.

His book, *Separation of Powers in Practice*, published by Stanford University Press in 2004, examines the constitutionally defined roles and powers of the judicial, legislative, and executive branches of government and then suggests which branch might best be address some of America's most contentious policy issues. He has also published numerous scholarly articles on the subjects of law and economics.

Tom C. Rubin

Chief Copyright, Trademark & Trade Secret Counsel, Microsoft Corporation

Associate General Counsel and Assistant Secretary, Microsoft Corporation

As Chief Copyright, Trademark & Trade Secret Counsel at Microsoft, Tom Rubin heads the company's strategy in each of those areas. Tom leads a team that has worldwide responsibility for the development and protection of Microsoft's intellectual property portfolio and for the creation and promotion of its intellectual property policy positions. The portfolio that Tom manages – including Windows, MSN/Windows Live, Microsoft Office and Xbox – consists of several of the most successful copyrighted works, most highly-valued brands and most valuable trade secrets in the world.

At Microsoft since 1998, Tom spearheads product development, licensing and enforcement strategies across all of Microsoft's business divisions. He also drives Microsoft's policy positions on a broad range of intellectual property and technology issues, including copyright and trademark reform, fair use, peer-to-peer, digital rights management and trade secret protection. Much of Tom's policy work over the past decade has focused on striking the right balance between the interests of consumers, creators and innovators in the digital age. To further those efforts, Tom has met with government officials around the world and has led several initiatives that have been joined by other technology companies, leaders of the content and media industries, other Fortune 100 companies and NGOs. In addition to intellectual property, Tom has expertise in a wide range of Internet, network security, open source and First Amendment issues, and was an architect of Microsoft's corporate compliance program.

Tom currently serves as a Fellow at the Center for Internet & Society at Stanford, on the Board of Visitors of Stanford Law School, and on the Board of Advisors of Stanford's Program in Law, Science & Technology and CCH's Guide to Computer Law. Tom has lectured widely, including at Harvard, Yale, Stanford, Berkeley and Seoul National University. He has testified about intellectual property reform before the U.S. Senate Judiciary Committee and has spoken at the Smithsonian Institution, the International Copyright Forum in Beijing, the Progress & Freedom Foundation Aspen Summit and the Fordham Conference on International IP Law & Policy. He has also addressed the annual meetings of the Intellectual Property Owners Association, the Copyright Society of the USA and the Association of American Publishers.

For several years prior to Microsoft, Tom served as an Assistant United States Attorney in the Southern District of New York, where he was a pioneering federal prosecutor of computer, electronic and telecommunications crimes. Tom received numerous awards while at the United States Attorney's Office, including the U.S. Department of Justice's Director's Award for Superior Performance as an Assistant United States Attorney, the top honor from the U.S. Customs Service and commendations from the FBI, DEA, NYPD, INS and Secret Service. Prior to the U.S. Attorney's Office, Tom was in private practice at Debevoise & Plimpton in New York, where he represented Sony Corporation, Time Inc., Infinity Broadcasting Company and others in intellectual property and media law matters. He also clerked for Judge Leonard B. Sand in the Southern District of New York and Chief Judge James L. Oakes in the U.S. Court of Appeals for the Second Circuit. Prior to law school, Tom worked in the newsroom of The New York Times.

Tom graduated with distinction from Yale University and Stanford Law School.

Jonathan Zittrain

Chair, Internet Governance and Regulation at Oxford University;

Professor of Entrepreneurial Legal Studies, Harvard

Jonathan Zittrain holds the Chair in Internet Governance and Regulation at Oxford University and is a principal of the Oxford Internet Institute.

His research interests include battles for control of digital property and content, cryptography, electronic privacy, the roles of intermediaries within Internet architecture, and the useful and unobtrusive deployment of technology in education. He was co-counsel with Lawrence Lessig in *Eldred v. Ashcroft*, which challenged the Sonny Bono Copyright Term Extension Act of 1998. The case lost 7-2 at the Supreme Court.

He performed the first large-scale tests of Internet filtering in China and Saudi Arabia in 2002, and now as part of the OpenNet Initiative he has co-edited a study of Internet filtering by national governments, "Access Denied: The Practice and Policy of Global Internet Filtering." He helped start Chilling Effects, a web site that tracks and archives legal threats made to Internet content producers. Google now sends its users to Chilling Effects when it has altered its search results at the behest of national governments.

His book about the future of the now-intertwined Internet and PC, will be available in spring 2008 from Yale University Press and Penguin UK -- and under a Creative Commons license.
